

Upgrade to the REACH Regulation

(European Regulation for Registration, Evaluation and Authorisation of Chemicals)

The REACH Regulation (no. 1907/2006) on the Registration, Evaluation and Authorisation of Chemical Substances **came into effect on 1 June 2008** to ALL intents and purposes.

In accordance with the provisions of the REACH Regulation, any party manufacturing or importing from non-member states of the EU any substance, including substances contained in a preparation, in quantities equal to or greater than one ton per year is obliged to register this with the European Chemical Agency. The methods and times of registration differ in accordance with the quantity manufactured or imported and the hazard level involved.

With reference to the terms of the REACH Regulation (no. 1907/2006) and subsequent amendments, additions, corrections and deeds connected with this document, we inform you that our company has implemented all the necessary procedures to bring its operations into line with the REACH Regulations, within the time limits and by means of the methods laid down therein.

Our company therefore **warrants** the continuity of supply of our products and their quality levels for the near future. We will keep you updated on developments and send you any updated technical documentation, where applicable.

We remain at your disposal should you require any further clarification.

Kindest regards

Nadia Calasso
